
Custom Channels Compact Player Specs

OVERVIEW

The Custom Channels compact music player is a streaming in-store audio device designed with a small footprint and powerful, reliable technology. The buttonless design is ideal for locations looking for a tamper-proof solution that is neither bulky nor requires a complicated setup. The affordable, easy-to-use player is trusted by thousands of Custom Channels clients.

KEY FEATURES

- Large buffer, small network footprint (<100 kbps)
- Web-based control and monitoring
- All connections initiated by player via standard Web port 80/443
- Secure for PCI-compliant environments
